

CASCADE QUARRY FISHING ACCESS

R.A.R. engineering group, inc., in cooperation with the Lawrence County Conservation District and the City of New Castle, provided site development of the Cascade Quarry for the relocation of the existing parking area, restoration of the access road into the lake for trout stocking and installation of sustainable stormwater controls to facilitate use of the site for recreational fishing. All of the work completed at the site was intended to improve the safety, accessibility and highlight environmentally sensitive road maintenance and stormwater practices.
